

COMPETITOR PRODUCT LOOKUP

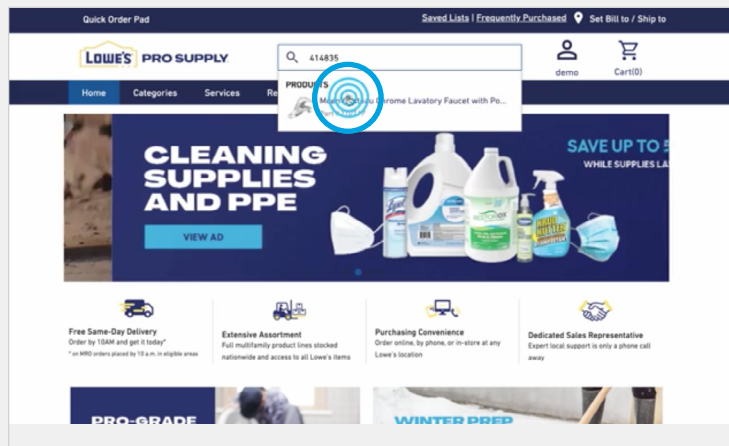

If you're looking for a product that you previously ordered from another supplier, our new Competitor Product Lookup feature makes it easy to find the corresponding part number on LowesProSupply.com

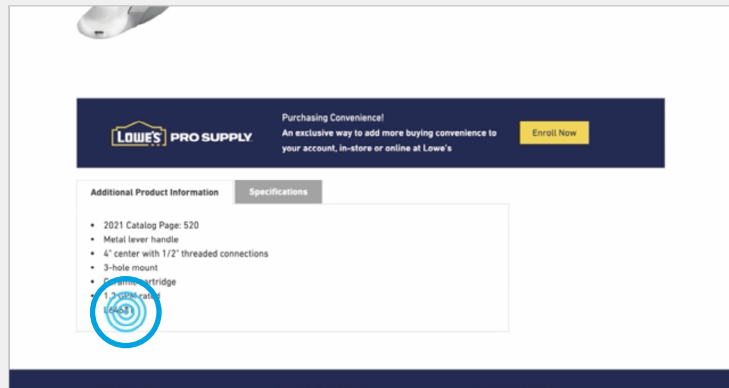

- **New functionality for 2021**
- **Search products by other suppliers' part numbers**
- **Easily find and order them from Lowe's Pro Supply instead**

To get started, simply go to LowesProSupply.com and enter the other supplier's part number in our Search bar.

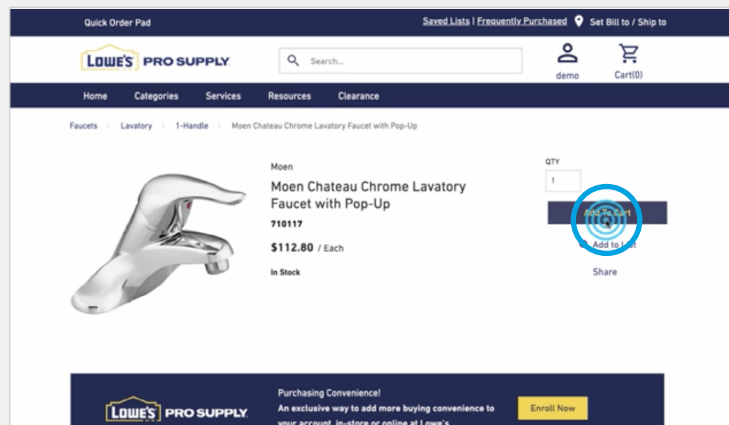

If it's a product we carry, the name, image and specifications — along with the Lowe's Pro Supply part number — should pop right up.

3

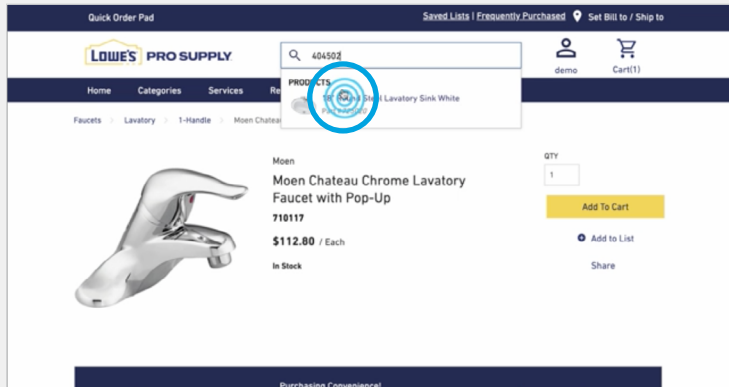

It's a good idea to verify the specs and quantities to make sure it's a match.

4

We recommend logging in to your account so that you can easily select Add to Cart, Add to List or Share.

COMPETITOR PRODUCT LOOKUP

5

Repeat the process for every product you'd like to look up. Our team updates competitor crossover part numbers on a regular basis to keep up with new products.
